The new **CMC ST 230** offers high performance with compact design. The machine creates perfect mixing and ventilation results for tractors of minimum 30 hp. With a net tunnel opening of 2.3 m the machine can turn compost windrows up to a width of 2.6 m. Built on a trailer, in the proven system, the machine offers all the advantages of its bigger brother such as the side-pull stabilisation, quick coupling and decoupling and it is easily transportable.

**The CMC ST 230 corresponds to the strict criteria of Controlled Microbial Composting.**
Compost turner
CMC ST 230

Technical data

- Maximum width: 2.70 m
- Maximum height: 1.25 m
- Rotor length: 2.30 m
- Transport height: 3.55 m
- Transport weight: ~1.40 t
  incl. counter weight: ~3.40 t
- PTO: Bondioli
- Tyres: Standard: 12.5/80-15.3
  Optional: 400/60-15.5
- Color: Grey / Blue
- Tractor power: from 30 hp
- Turning quantity: up to 600 m³/h
- Working speed: 100 - 750 m/h (depending on
  windrow size, density, process progress)

Options:
- Hydraulic pusher axle
- Hydraulic front shovels
- Hydraulic rotor drive
- Stainless steel rotor tunnel
- Inoculation system
- Special colours
- Irrigation boom
- 1,000 l Irrigation-Inoculation combi
- Lighting system 12 V
- Brake system
- Towing hitch above PTO
- Fleece roller
